SKILLS

- **Technical skills -** Microsoft Office, Data entry, HTML, CSS, JavaScript, React, Git/GitHub, APIs, Node.js
- **Soft skills -** Teamwork, Adaptability, Communication, Organisational, attention to detail, customer service, Interpersonal skills

SOFTWARE EXPEREINCE

PROJECT 1 - *Personal Portfolio Website*

- Designed and developed the portfolio using **HTML**, **CSS**, and possibly other technologies learned.
- Utilized GitHub for version control and hosted the portfolio online, ensuring cross-browser compatibility and accessibility.
- Implemented interactive UI elements to improve user engagement, resulting in a visually appealing and user-friendly experience.

PROJECT 2- *Coolors Homepage Clone (Desktop Version)*

- Replicated the desktop version of the Coolors homepage using **HTML**, **Sass,** and **JavaScript**, demonstrating attention to design precision and responsiveness
- Optimized styling with **Sass** features such as variables and mixins, reducing redundant code by 30%.
- Enhanced interactivity and user experience using **JavaScript** for dynamic content and functionality.
- Deployed the project to **GitHub**, showcasing proficiency in version control and collaborative development

PROJECT 3- EcoConnect - Responsive Web Application

- Built a fully responsive website using **HTML**, **CSS**, and **Bootstrap** to create a visually appealing and responsive user interface.
- Implemented a password toggle feature using **JavaScript** to enhance user experience.
- Independently iterated on design and functionality based on feedback from peers and self-evaluation, ensuring a user-centric approach.
- Successfully delivered a prototype tested for usability and compatibility across various devices.

TECH ACTIVITIES

Web Development Bootcamp: Udemy (2023)

- Completed an intensive web development bootcamp, gaining hands-on experience in front-end and back-end web development technologies.
- Developed a solid foundation in HTML, CSS, and JavaScript, along with frameworks such as React and Node.js.
- Learned key concepts of database management and server-side programming, using technologies like MongoDB and Express.js.
- Successfully completed various projects, applying acquired skills to create responsive and interactive web applications.
- Acquired knowledge of industry best practices, including version control with Git, responsive design, and web security.

Introduction to Programming Course: Learn HTML, CSS, PYTHON & MORE: BitDegree

- Explored techniques for building responsive user interfaces and designing visually appealing layouts across different devices.
- Learned Python programming language, covering basic syntax, data types, control structures, and functions.
- Developed foundational knowledge in HTML and CSS for web development.

EDUCATION

Bachelor of science in Nutrition	Oxford Brookes University
BTEC Extended Diploma L3 in Health and Social care	City and Islington college
